TECH STACK (TOOLS I USE DAILY)

WORK EXPERIENCE

Oct 2023
– Dec 2024

DevOps Engineer

Hydroneo Co., Ltd | Bangkok, Thailand

- Designed and maintained CI/CD pipelines using Jenkins, GitLab CI/CD and ArgoCD.
- Managed Infrastructure as Code with Terraform and CloudFormation.
- Built and managed Kubernetes clusters with Helm and Docker.
- Implemented monitoring stack using Prometheus, Grafana, and ELK.
- Enhanced security by implementing best practices for IAM, secrets, and access control.
- Reduced deployment time by 70% through automation and pipeline optimization.
- Collaborated with Dev, QA, and Security teams to ensure system reliability.

Dec 2022
– Sep 2023

System Engineer

Asiacab Co., Ltd | Thailand

- Monitored and maintained infrastructure on Microsoft Azure Cloud.
- Configured Kubernetes on AWS, Load Balancer, EC2 Worker Nodes.
- Installed and configured AWS RDS (MySQL) and Route 53.
- Implemented CI/CD pipelines using Jenkins and GitLab.
- Deployed and managed WordPress websites and domains.
- Generated weekly cloud usage reports and system health reports.

May 2020
– Nov 2021

System Engineer

SERV Consulting Co., Ltd.

- Monitored mobile applications on AWS using CloudWatch and Datadog.
- Maintained high availability and performance of cloud-based systems.
- Created and tracked incident tickets using Jira Service Management.
- Analyzed and resolved system issues to ensure minimal downtime.

Apr 2007
– Mar 2008

System Operator

Abc Technology Co., Ltd. | Thailand

- Operated Data Center (pSeries, xSeries, Total Storage).
- Monitored servers and databases using Tivoli monitoring tools.
- Coordinated with vendors for preventive maintenance.
- Resolved incidents and maintained operation stability.

Dec 2002
– Feb 2007

Program Technical Support

Beci Corporation Co., Ltd. | Thailand

- Supported and operated SMS chat servers (Solaris, JBoss, MySQL).
- Maintained reports and data for TV3 News program.
- Developed and updated scripts (Shell, JSP) for SMS systems.
- Managed and updated website content and features.

CERTIFICATIONS

EDUCATION

Bachelor of Science in
Computer Science and Technology (CST)
Rajapahat Ubonratchathani University
Ubon Ratchathani, Thailand
2001

FEATURED PROJECTS

- CI/CD Pipeline Automation**
End-to-end CI/CD pipelines using GitLab CI, Jenkins and ArgoCD.
- Kubernetes Production Cluster**
Designed and managed HA Kubernetes clusters on AWS.
- Monitoring Stack**
Implemented monitoring with Prometheus, Grafana & Alerting.
- Infrastructure as Code**
Managed cloud infrastructure with Terraform & Ansible.
- Cloud Migration**
Migrated on-prem applications to AWS with high availability.

“ Automate everything. Monitor everything. Improve continuously. ”
